AQUA LUNG OSPREY BREATHABLE DRYsuit FOR WATER RESCUE

The OSPREY is a long duration breathable drysuit designed for swiftwater, flood, and other water rescue missions. The unique design of the OSPREY allows for a comfortable stand-by mode while still offering critical protection in unpredictable environments.

Key Features

- Patented, true self-entry featuring Captive Zip Design (Pat.# 10,093,401)
- Patented adjustable full circumference neoprene neck seal (Pat. #9,714,074)
- Superior fit and comfort assisted by pre-shaped legs and torso
- Comfortable standby mode design with highly flexible TIZIP
- Saltwater resistant waterproof breathable material
- Attached over jacket for fully donned or standby mode
- Anti-flush wader belt located under jacket
- Reinforced padded elbows, knees/shins, and seat
- Neoprene wrist seals, gauntlet overlays, hook & loop cinches
- Lower leg boot gauntlets with hook & loop cinches
- Zippered chest pocket
- Relief/comfort zipper
- Attached soft dry socks (ideal for use with EVO4 Boots)
- Loop shoulder panels for adhering patches
- High visibility red top, black bottom and reflective patches
- Accessories - zipper lube and Instruction Manual

Specification - Material

- Breathable/waterproof 3-layer material comprising:
- Outer: 200 denier nylon, durable, water repellent
- Core: breathable, salt water resistant polyurethane
- Inner: protective 18 denier nylon
- Neoprene wrist seals
- 420 denier nylon reinforced elbows, knees/shins, and seat

AQUA LUNG MK0 UNDERGARMENT

ONE-PIECE UNDERGARMENT FOR USE WITH ALL DRYSUITS

The MK0 undergarment is a one-piece bamboo fiber base layer. It is designed to be worn under any of our undergarments and provides excellent moisture wicking performance. The MK0 can also be worn as a standalone layer in tropical conditions.

Key Features

- Spandex content results in extreme stretch; no need for king sizes
- Smooth LYCRA® stirrups and elastic thumb loops
- Rear convenience flap
- 2-way torso entry/relief zipper
- Non-corroding YKK zippers
- Easy care design
- Designed as a wicking base layer or a primary layer in warm tropical waters above 70°F (21°C) water temperature

Materials

- Breathable, moisture-wicking, bamboo blend

Sizes

- Stock sizes only: XS, S, M, L, XL, 2XL

AQUA LUNG SPHERA X

The New SPHERA X is the next generation SPHERA, the number one Freediving mask by Aqua Lung. The unique distortion-free lens technology provides a 180 degree wide-angle field of vision and let the user experience a panoramic vision that's pure freedom for the eyes. Over many years of legacy for the SPHERA, Aqua Lung's design team carefully studied the specifics of freediving equipment and researched the optimization for this low-volume mask. With the input of professional free divers, successful technologies used in other Aqua Lung masks have been used and combined with the most suitable skirt shapes and frame characteristics.

- 180° distortion-free panoramic vision thanks to the exclusive Curved Lens Technology
- Plexisol® lenses with special anti-fog and anti-scratch benefits
- UVA/UVB protection
- Advanced Fit Technology (AFT) enhancing the sealing features of the silicone skirt, improving fit, comfort and feel
- Easy adjustable buckle system
- An innovatively shaped strap better forms to the diver's head, increasing comfort and provides a more secure fit
- Attractive heavy-duty EVA box with corrosion free zipper.

PART #	DESCRIPTION
MS4700101	MASK, SPHERA X, CLEAR SIL/GLACIER

AQUA LUNG PLAZMA

For new and experienced divers, the Plazma is the only frameless panoramic diving mask that delivers a perfect fit with excellent comfort from surgical grade premium silicone and enhanced stability zones. The Plazma mask delivers a lightweight and compact, low-profile design in fresh, exciting color combinations and is available with Clear and Amber lens options.

- Frameless constructions utilizing Aqua Lung proprietary Micromask Technology
- Pressure reduction zones are incorporated into the silicone skirt at strategic points to help relieve the pressure of the mask on long dives. This engineered design utilizes these reinforced zones to improve also skirt stability at traditional weak points
- Two lens options: Clear and Amber, that reduces glares in shallow water and enhances red colors in deep water
- Quick Fit Buckles. The one-touch button release allows for easy adjustment for the best fit, even while wearing thick gloves
- Advanced Fit Technology (AFT) enhances the sealing features of the silicone skirt, improving fit, comfort and feel
- Preformed mask strap better forms to the diver's head, increasing comfort and provides a more secure fit
- Reusable protective case

The Aqua Lung DS Masks

Did you know?

The human eye sees the opposing “complementary” color of whatever color is absorbed by an object which is why things appear yellow when blue light is blocked. This explains why most lenses designed to block HEV light have a yellowish tint. Aqua Lung included two lens options for their new masks: The “Plus” and “Blue” HD Mirror lenses. Both technologies block our harmful HEV light that could damage your eyes’ retina.

- The “Plus” HD lens allows a moderate level of light into the eye and provides some glare protection while enhancing warm colors underwater. It’s a practical lens technology for changing conditions.
- The “Blue” HD Mirrored lens provides excellent vision in both high and low light environments. In low level light this lens technology offers a clearer vision, amplifies the light and provides higher contrast. In high light levels it also reduces glare

AQUA LUNG PROFILE DS

The Aqua Lung Profile is a super comfortable frameless mask. It has superior vision due to the design of the lens in both vertical and horizontal angles. Fitted with our easy to use flexible joints buckles and silicone 3D strap and all packaged in a luxury zippered Aqua Lung branded EVA case. The Profile is available in two lens options: the “Plus” and the “Blue” HD Mirror lens

- Soft Frameless design.
- Low Profile makes it easy to clear.
- Choice of Plus or Blue mirrored HD lenses that block HEV light.
- Anti-fog coating to aid for crystal clear viewing.
- Buckle to skirt so you can fold the mask flat for storage in BCD or suit pocket.
- Counter-post push button activation make strap adjustment easy when using wearing gloves.
- 3D mask strap to perfectly and comfortably fit the diver’s head and keep the strap securely in place.
- Comes in an zippered EVA case for keeping it secure
- and in great condition post dive or during storage.

PART #	DESCRIPTION

MS4720101LV	PROFILE DS BK/BK PLUS LENS

AQUA LUNG MISTIQUE DS

The Aqua Lung Mistique is hard frame single lens mask that offers an uninterrupted field of vision. Its low volume and has a stylish dragonfly shape. It comes with easy to operate flexible joints buckles and complimented by the 3D strap. All packaged in a luxury zippered Aqua Lung branded EVA case. The Mistique is available in two lens options: the "Plus" and the "Blue" HD Mirror lens.

- Single lens mask with exceptional field of vision.
- Low Profile makes it easy to clear.
- Choice of Plus or Blue mirrored HD lenses that block HEV light.
- Anti-fog coating to aid for crystal clear viewing.
- Buckle to skirt so you can fold the mask flat for storage in BCD or suit pocket.
- Counter-post push button activation make strap adjustment easy when using wearing gloves.
- 3D mask strap to perfectly and comfortably fit the diver's head and keep the strap securely in place.
- Comes in an zippered EVA case for keeping it secure and in great condition post dive or during storage.

MS4570101LV	MISTIQUE DS BK/BK PLUS LENS

AQUA LUNG REVEAL X1

The Reveal's innovative features make this dive mask our most comfortable and best fitting mask. Created after years of research and testing, the Reveal is a premium diving mask that delivers ultra-comfort and a perfect fit thanks to both a super soft, top quality silicone skirt with an ergonomic profile. The new buckles, attached directly to the silicone skirt, feature a single quick-button release system and the mask is equipped with an innovative spherical silicone head band strap—all to help the diver create the perfect leak-free fit. The large operating button is easily activated, even with thick gloves. The Reveal is available in single lens (Reveal X1)

- Universal Advanced Silicone Skirt (UASS). After years of research and testing, an innovative wrap-around geometry has been designed for an excellent fit for a wide range of face shapes. A new grade of silicone is used to create a super soft and comfortable fit
- Advanced Fit Technology (AFT) enhances the sealing features of the silicone skirt, improving fit, comfort and feel
- The Spherical Silicone Head Band Strap is an innovative design for the silicone strap, in the shape of a sphere to perfectly and comfortably fit the diver's head and keep the strap securely and comfortably in place
- Quick Fit Buckles. The one-touch button release allows for easy adjustment for the best fit, even while wearing thick gloves. The buckles are attached directly to the silicone skirt in order to provide stability on the face
- HI-VIS technology molds the frame of the Reveal from two bright yellow and orange materials for increased visibility under water
- The single-lens of the Reveal features an innovative construction system that makes it the lightest single

PART #	DESCRIPTION
MS192115	REVEAL X1 BLACK W/BLACK SKIRT

AQUA LUNG FAVOLA

Guarantees an incredible field of vision, the Favola is unique and revolutionary.

- The patented “double joint” buckles (cardanic joint buckles) rotate both up-and-down and in-and-out. They provide maximum adaptability and comfort to any head shape.
- The lenses are at an incline providing a wide angle of view upwards and downwards.

PART #	DESCRIPTION
MS137116	CLEAR SILICONE BLACK/BLUE/SILVER
MS137112	BLACK SILICONE/BLACK

AQUA LUNG MICROMASK

The smallest and the lightest diving mask. Less than 91 cm³ and less than 15 g. The Micromask is perfect for apnea and spear fishing. Thanks to its small size, it can be used as a back up mask. It will be able to be placed in a BC pocket.

- 2 lens mask: an extremely low volume and a low profile resulting in excellent horizontal and vertical angle of view.
- Hypoallergenic silicone skirt fits with double seals ensuring a perfect seal.
- Cardanic joint buckles: the patented “double joint” buckles rotate both up-and-down and in-and-out. They provide maximum adaptability and comfort to any head shape.
- New push buttons buckles system : to reduce the length: pull on the strap. To release the strap: push on the 2 buttons.
- Large head strap : greater stability. Perfect fit and great comfort of wearing.

PART #	DESCRIPTION
MS151111	MICROMASK BLACK/BLACK SILICONE

AQUA LUNG TEKNIKA

Built to withstand the rigors of technical diving, the Teknika's two-piece shock resistant frame is assembled with AISI 304 stainless steel bolts and screws for superior strength. The twin-lens design provides an excellent field of view and the dark skirt eliminates distracting side-light, a feature many technical divers appreciate when spending long hours in the water.

- Shock-absorbing techno-polymer frame stands up to abuse on the dive deck and in the water.
- Stainless steel AISI 304 bolts and screws deliver incredible strength and resist corrosion from saltwater exposure.
- Mask skirt and buckles fold flat, making the Teknika easy to carry as a back-up mask in a BC pocket.
- Cardanic Joint Buckles rotate both up-and-down and in-and-out for a customized and pinch-free fit.
- Counterposed push button activation makes strap adjustments fast and holds the strap securely in place once set. The system is also easy to use when wearing gloves.
- Wide headpiece on silicone strap conforms to the user's head to ensure a comfortable, secure fit.
- High-grade silicone material allows the facial skirt to flex and naturally mold around facial contours for a leak-free seal.
- Shatterproof, tempered glass lenses suitable for diving and snorkeling meet ANSI standards.

PART #	DESCRIPTION
MS167111	TEKNIKA BLACK/BLACK SILICONE

AQUA LUNG VENTURA +

Great designs stand the test of time, and the Ventura continues the tradition of a mask long used by divers around the globe. This updated version is available in new colors and adds the comfort and performance of Cardanic Joint Buckles to a classic, rugged frame.

- Proven single-lens frame delivers a wide field-of-view and a nearly universal fit.
- Cardanic Joint Buckles rotate both up-and-down and in-and-out for a customized and pinch-free fit.
- Counterposed push button activation makes strap adjustments fast and holds the strap securely in place once set. The system is also easy to use when wearing gloves.
- High-grade silicone material allows the facial skirt to flex and naturally mold around facial contours for a leak-free seal.

MS4680101	OMNI 2 LENS BLACK MIDI

AQUA LUNG LOOK 2

Look 2 is a two-lens mask, complete with patented Cardanic Joint Buckles. It features a silicone strap with a wide headpiece. The close-to-the-cheekbones frame design guarantees an excellent view in all directions. The Look 2 boasts a low inner volume for easy clearing. The Look 2 supports a wide assortment of negative and positive dioptré corrective lenses. A clever lens replacement system allows for rapid and easy substitution of the lenses (patent pending).

- Double lens, 3 mm tempered glass
- New twin button release system makes glass locking ring removal quick, safe and easy
- Pure silicone mask skirt with the same skirt shape and dimensions of the LOOK mask
- Cardanic joint buckles (double joint buckles) rotate both up-and-down and in-and out
- Quick counterposed push button activation is easy to use even when wearing gloves
- Wide headpiece on silicone strap provides stability and comfort.
- Weight: 185 gr

AQUA LUNG IMPULSE 3

Since its introduction in 1989, the Impulse has been the best selling snorkel in the world. Today, after continued refinement and evolution, the Impulse 3 is more streamlined and higher performing than its predecessors, the Impulse and Impulse 2.

- The Impulse 3 uses a two-valve system. If a wave breaks over the snorkel, the patented upper annular valve directs most of the water out before reaching the mouthpiece any water that does get past drains out the lower valve
- The reservoir located below the mouthpiece keeps the breathing path clear of excess water; in the rare event you'll need to clear the snorkel, all it takes is an easy puff
- Patented comfobite mouthpieces, which eliminate jaw fatigue, are replaceable and an optional, smaller size is available
- Also available in a non-flex, version

PART #	DESCRIPTION

apeks RK3 HD FINS

The RK3 HD fin is the latest in the RK3 offering. Made from a higher density material than the standard RK3, the RK3 HD fin is stiffer and heavier, making them the ideal fin for drysuit diving. The new, heavier compound makes them negatively buoyant and produces a stiffer blade, providing additional power in heavy currents or surf.

- Based on one of the first vented rubber fins sold in North America and popular among military and professional divers
- Compact, and ultra rugged for use in harsh environments
- Improved foot pocket with spring straps for ease of use with cold hands or thick gloves
- The design has been the standard gear issue fin for military, special ops, coast guard and public safety divers for decades
- Short, wide blade provides maximum forward thrust while maintaining great maneuverability
- Vented blade design reduces resistance on the upstroke and enhances thrust on the downstroke
- The vents also eliminate vortexes that can occur along the back of the blade much in the same way split fins eliminate the vortex
- The blade material is designed to hold up in the toughest environments, temperatures and abuse
- Two large grommet holes designed to fit most carabineers for easy storage of the fins
- Custom designed buckle holds spring straps in optimum position
- 3 sizes available: Medium (7-9), Large (9-11) and Super (12+)

Fin Material	Thermoplastic Rubber
Dimensions	Medium - 19.15 in L x 9 in W Large - 21.5 in L x 9.5 in W Super - 22.5 in L x 9.5 in W

AQUA LUNG SOLAFX 8/7MM

The SolAfx is Aqua Lung's advanced wetsuit, with unique features like an integrated hood and internal arm and leg cuffs. The redesigned SolAfx suit includes Aqua Lung's X-Tend cuffs, providing a finished look with maximum stretch. Unique design specially tailored for men and women. The suit provides maximum warmth, thanks to its 8 mm torso and 7 mm arms and legs.

- Environmentally friendly features:
 - Non PAH (polycyclic aromatic hydrocarbons) neoprene
 - Non-petroleum based material
 - REACH (European Union standards) approved thread
- Liquid FUSION Seam Technology with reinforcing patches on the inside at seam junctions enhances the durability and integrity of the seams
- The suit has an across-the-chest Plasmaloc zipper with tighter tolerances and a unique integrated tooth design to make it more water resistant than most other brands; this minimizes water exchange and allows you to remain warm throughout your dive
- Silicone no slip shoulder feature provides added protection and helps keep BC shoulder straps in place
- A water dam covers the neck and shoulders, providing an additional layer of thermal protection against any water entering through the zipper
- Skin-in gasket seals in the forearm and calves minimize water entry through the sleeves and legs
- Lower back pad helps keep water out
- The outer nylon material is resistant to abrasions and hook and loop snags due to the tighter weave to keep your suit looking good
- The inner material is ultra soft and provides exceptional comfort and makes these suits easy to don and doff
- Powertex kneepad offers increased flexibility and excellent abrasion resistance
- Pre-bent anatomic legs and arms provide a more comfortable fit and reduce bunching of material at the joints
- G2 vent technology in attached hood allows trapped regulator exhaust bubbles to exit while keeping cold water out

OMER HOLOSTONE

The Holostone suit is proving to be one of our most popular camo patterns ever. The combination of in focus and out of focus patterns along with the various shades of brown fading to almost white make the pattern work in various environments. The lighter colors reflect the ambient colors making the Holostone pattern highly adaptable to its environment. The Holostone also uses a new high stretch neoprene and fabric making it the stretchiest suit in our lineup. The high degree of stretch not only improves a diver's comfort but also allows the Holostone to fit a wide range of body types.

- Brown & white camo pattern
- Ultra Stretch neoprene and fabric
- Open cell interior
- Reinforced loading pad
- Abrasion resistant knees
- Wrist, ankle, and face seals (on 5mm & 7mm, the 3mm has high stretch fused cuffs)
- Available in 3mm, 5mm, and 7mm thicknesses.
- Sizes S/2 - XXXL/7
- Trade Compliant

AQUA LUNG AQUAFLEX 6/5/3MM HOODED VEST

The 6/5/3mm hooded vest is a popular accessory to provide additional warmth to any of our jumpsuits. The different thicknesses of high end super stretch material has been strategically placed for easy donning and doffing as well as properly insulating high heat-loss areas.

- The hood is 6mm thick with a 4mm skin-in face seal which can be easily trimmed
- The vest has 5mm front and back panels with 3mm sides for ease of donning and doffing
- A bubble vent built into the hood allows trapped exhaust bubbles from the regulator to escape Seams are glued and blindstitched

AQUA LUNG ERGO NEOPRENE SOCK

Neoprene Sock for Wetsuit or Drysuit

The Aqua Lung Ergo Neoprene Sock is designed for comfort with a wetsuit or drysuit. The ergonomic left and right foot specific design reduces bagginess for a warm and smooth fit. The sock helps prevent blisters while wearing open heel fins and increases warmth with glued and blind stitched seams.

Key Features

- Ergonomic left and right foot shape
- Durable elastic bound cuff
- 3mm neoprene
- Weight: 0.5 lb (0.25 kg)
- Sizes: XS-XL

AQUA LUNG CERAMIQSKIN

Our CeramiQskin first layer range is the most advanced Aqua Lung suit ever designed to assist you in staying warm during dives and can be used under either a drysuit or a wetsuit. It can even be used alone for warm-water dives. The material is an exclusive and highly technical fabric that gives a high level of thermal protection, zero buoyancy and extreme comfort thanks to the Ceramic technology applied in the tri-laminated fabric. CeramiQskin is a blend of Lycra exterior with a breathable Polyurethane (PU) membrane and polar fleece inside. The range is composed of tops (short and long sleeves), shorts, and pants.

- **Tri-laminated fabric:** Lycra on the outside, PU membrane with Ceramic Technology in the middle and Polar Fleece against the skin
- **Ceramic technology:** Uses a blend of 30 metallic oxides derived from volcanic rocks, heated at 1600°C and mixed with a polyurethane binder. This paste obtained is applied on a PU membrane, enabling it to capture the “far” infrared rays emitted by our body and return them to the body. This helps to keep you warm, activates blood microcirculation and provides a high level of comfort
- **Zero buoyancy:** No need to add weight
- **Polar Fleece:** Rests against the skin for added comfort and warmth
- **Breathable PU Membrane:** Facilitates the transfer of moisture from inside to outside, but is a watertight barrier from outside to inside
- **Silicone Strip:** Located on the inside edge of the top helps keep everything in place
- **Produced in France:** They all meet the expectations of the European regulation REACH (free of forbidden chemicals) and also the OEKOTEX worldwide label

AQUA LUNG MARBLE RASHGUARD

The name rash guard reflects the fact that the shirt protects the wearer against rashes caused by abrasion or by sunburn from extended exposure to the sun. But trendy Aqua Lung rash guards can do a lot more than that; they are designed to be worn both in and out of the water while providing full UV protection, ward off jellyfish stings or add an extra layer under your Aqua Lung diving suit. The range offers athletic-fit or loose-fit cuts to suit different needs and styles, but also leggings for women.

- The Aqua Lung rash guard fabric is 80% polyester and 20% elastane. Polyester helps keep colors fresh and bright whilst staying undamaged by chlorine. A nylon-elastane blend is breathable, stretchable, and form-fitting when wet. Rash guards made from this fabric are also quick-drying
- All the Aqua Lung rash guards provide UV protection of SPF50+, enough to protect from a sunburn but still comfortable to be worn on bare skin
- On athletic-fit models, the back is longer than the front in order to provide extra sun protection
- A loop is sewn on the front to fasten the strap on men's surf shorts or swimsuits — this will prevent a roll-up and keep the shirt in shape while you wear it
- A slightly raised neckline gives sun protection during surface activities or stops the buoyancy compensator from rubbing against your skin during warm water dives and helps keep you warm when used as an under-garment
- For women, there is a wide range of leggings to complete their outfit. They can be worn for the perfect protection during surface activities or under a dive suit to ease the step-in and

make dressing up for a dive a delight

STYLE: Short or long-sleeved rash guard, leggings

MATERIAL: 80 % polyester/ 20 % Elastane

SEAMS: Flat stitched seam

SLEEVES: Short and long

MEN'S SIZES (ALL MODELS): S, M, L, XL, 2XL

WOMEN'S SIZES: S, M, L, XL, 2XL

apeks DRY75

The DRY75 is a workhorse dive bag that will easily carry all of your personal dive gear, plus a trip's worth of clothes. The pack capacity of the DRY75 is 75 liters and comes with a removable dry core to separate your wet gear from your dry gear. The main body of the bag has a drain valve on the front for rinsing your equipment on the go. The splash proof top flap is a pocket for easy access to important things, like your passport. If this bag isn't big enough on it's own, there are four easy attachment points for the Apeks DRY12 bags.

- Dimensions: 27"x13"x13" (68.5x33x33 cm)
- Volume: 4563 in3 (75 liters)
- 1000D nylon core, 0.6mm tarpaulin
- Heat welded waterproof seams on the main bag and the removable core
- 25" (63.5 cm) wide roll top opening
- Polymer reinforced foam bottom to reduce impact force and wearing
- Removable 500D nylon, 0.4 mm tarpaulin, dry core to separate your wet gear from your dry gear
 - Core volume: 4563 in3 (75 liters)
- Easy grip zipper pull
- Ergonomic air mesh backpack straps are reinforced to distribute weight
- Replaceable drain valve to assist in rinsing gear after dives
- Black chrome stainless steel hardware
- Nylon Duraflex buckles
- Four attachment points for Apeks DRY12 bags

PART #	DESCRIPTION
BA148011299	DRY75 PACK

Apeks DRY12

The DRY12 is a 12 liter roll-top dry bag is designed to modularly attach to the Apeks DRY100 & DRY75. The four stainless steel carabiners on the DRY12 latch to the D-rings on the side of the DRY100.

The DRY75 has four locations to attach multiple DRY12 bags. Three attachment locations are on the sides and front of the DRY75. The fourth is located on the top flap. This increases your DRY75's packing capacity by 48 liters. It also provides four added dry compartments to your bag.

- Dimensions: 22"x8"x7" (56x20.5x18 cm)
- Volume: 8400 in3 (12 liters carrying capacity)
- 1000D nylon core, 0.6 mm tarpaulin
- Heat welded waterproof seams
- Black chrome stainless steel hardware
- Nylon Duraflex buckles
- Easily attaches to the Apeks DRY100 and Dry75

PART #	DESCRIPTION
BA149011299	DRY12

Apeks DRY100

The waterproof DRY100 Duffel is designed to protect your gear from the most extreme environments. The packing capacity of this bag is 113 liters and features a 33" (84 cm) wide roll-top opening to make it easy to pack and unpack your gear. The bottom is padded with a polymer reinforced foam which reduces impact force and wearing.

For those long hikes to your dive site, we added removable backpack straps and a removable side pocket that unfolds into a changing mat.

- Dimensions: 17"x27"x15" (43x68.5x38 cm)
- Volume: 6,885 in 3 (113 liters)
- 1000D nylon core, 0.6 mm tarpaulin
- Heat welded waterproof seams
- 33" (84 cm) wide roll-top opening
- Trolley cart sleeve on bottom panel
- Removable side pocket with splash proof zipper
- Easy grip zipper pull
- Stowable changing mat attached to removable pocket
- Changing mat is 32"x 23" (81x58.5 cm) and double layered 1000D tarpaulin
- Compression straps with a comfortable haul handle
- Replaceable drain valve to assist in rinsing gear after dives
- Black chrome stainless steel hardware
- All buckles are nylon Duraflex buckles
- One side attachment point for the Apeks DRY12

Removeable splash-proof side pocket with roll out changing mat and name slate

PART #	DESCRIPTION
BA159041099	850 TRAVELER Duffel ROLLER

AQUA LUNG EXPLORER II ROLLER

This rolling luggage accommodates a full dive kit and all your other travel gear. Designed especially for scuba, it has side pockets that will fit our larger fins like the Aqua Lung X-Large Phazer. Coordinates with the rest of our Explorer II Collection of bags.

Features

- Easy to Transport: Rugged wheels get you through the airport easily. Lightweight, extendable aluminum handle. Top handle for lifting.
- Designed for Scuba: Side pockets to fit even the largest of fins.
- Protective: Internal frame structure is designed to rebound and be shock-absorbent. The V-diamond base, skid rails and eight corner guards keep your gear safe from the airport bag handlers. Zippers accommodate locks.
- Durable: Heavy-duty 1680D polyester exterior material is lined with an abrasion resistant PVC-coated. Zippers are corrosion-resistant and zipper pulls are easy to grip. Two-year limited warranty.
- Stow More: Exterior and interior pockets for organizing your gear, clothes, and other essentials.
- Size: 29 x 20 x 13" (73 x 51 x 33cm)
- Weight: 9.5lb (4.4kg)

PART #	DESCRIPTION
BA134112	EXPLORER II ROLLER BLACK

- Total weight is 0.5 lbs

PART #	DESCRIPTION
BA162041099	70 TRAVELER REGULATOR

AQUA LUNG PRO PACK ONE

The Aqua Lung Pro-Pack1 features a top-loading design with multiple organization pockets for your gear on dive days or your normal stuff for all those other days.

Features

- Designed for Scuba: Padded pockets for regulators or masks. Compression straps for any size fin.
- Convertible: A bottom pocket that stuffs down to the bottom of the main compartment for maximum space no-matter how you pack the bag.
- Easy Access: The zippered front and side pocket are for the things you need to access often; passport, water bottle, pens, keys, phone, sunscreen ...
- Practical: We know you won't always use this for dive gear. So, we made sure it has a laptop pocket, organization panel, sunglass pocket, water bottle pockets on both sides and a fast access pocket.
- Size: 20.5 x 12.5 x 7.5" (52 x 32 x 19cm)
- Weight: 1.7lbs (0.7kg)

AQUA LUNG EXPLORER II DUFFEL PACK

With its carry-on size, stowaway backpack straps, and mesh drying pocket, this is the most versatile dive pack on the market today. It's designed especially for scuba, with fin straps that hold any size fin. Part of the complete line of Explorer bags to get you completely outfitted for dive travel.

Features

- **Durable:** Made of heavy-duty, 1680D polyester and mesh. Zippers are corrosion-resistant and zipper pulls are easy to grip. Two-year limited warranty.
- **Convertible:** Adjustable shoulder straps double as Duffel handles.
- **Designed for Scuba:** Dry your wet accessories while you travel in the Duffel's mesh drying pocket. Fin straps on the back of the bag hold any size fin. Protective internal padding gives the bag shape and protects your gear. Protective V-diamond base and six corner guards. Zippers accommodate locks.
- **Stow More:** Also sports a smaller sunglass pocket and two exterior pockets.
- **Size:** 24 x 13 x 9" (61 x 33 x 23cm)
- **Weight:** 2lb (1kg).

- Capacity 5,731 in³
- Weight 1.75 lbs

PART #	DESCRIPTION
744950	MARINER MESH LARGE BLACK
744490	SHOULDER STRAP

AQUA LUNG ARGONAUT KNIVES

The Argonaut knife, designed in conjunction with the world's premier maritime commandos, is one of the best and toughest knives. The Argonaut is now available in two sizes - the original Argonaut and a smaller version Argonaut Stunt. The butt, handle, hilt and blade are all fashioned out of one piece of 4 mm thick titanium (Argonaut) or 420 stainless steel (Argonaut Stunt), coated in black EDP, sharpened and laser etched. The handle is twice wrapped in 5 mm paracord and tied off with a 12.7 cm (5 in) leash. 2 mm thick Kydex plastic is heated and thermoformed around the knife to make the sheath. The sheath comes attached to a 2" belt loop with BC mounting hardware.

The blade is available in two styles: the Spartan and the Blunt. The Spartan comes to a spearhead point with one side featuring rounded die cut serrations to prevent snags on rope. The Blunt comes to a blunt chisel-like tip. One full side of the Blunt blade is die cut with rounded serrations.

The handles are wrapped from the hilt to provide a spot for the forefinger and extra grip for the sheath. The butt of the handle features a sharp tactical tool and the skeleton holes in the handle are hex wrenches for emergency situations.

ARGONAUT

- The blade and handle are each 4 7/8" long
- The butt of the handle comes to a point for hammering, breaking and crushing
- The sheath is a locking 2 mm thick Kydex with 1/8" grommets; the strap holes are 1" long and 1/4" wide
- Includes two rubber leg straps

ARGONAUT STUNT

- The blade is 7.7 cm (3 in) long and the handle is 10.1 cm (4 in)
- The butt of the handle comes to a point for hammering, breaking and crushing
- The sheath is a locking 2 mm thick Kydex with 1/8" grommets; the strap holes are 1" long and 1/4" wide
- Includes two rubber leg straps, belt loop webbing extension and BC mounting hardware

NEOPRENE LEG SHEATH

- Rugged adjustable straps to fine tune fit
- Sturdy buckles for reliability
- Fits all Aqua Lung knives
